Journal of Periodontology

Published by the American Academy of Periodontology

Subject Index to Volume 52, Numbers 1 thru 12

Actinobacillus actinomycetemcomitans: A Selective Medium for -- and the Incidence of the Organism in Juvenile Periodontitis. (Mandell, and Socransky) 593
Actinomyces viscosus: Immune Response to Keyhold Limpet Hemocyanin and Oral -- Antigens in *Macaca arctoides.* (Reed, Borkow, and Staple) 111
Allografts: Preliminary Observations on the Usefulness of a Decalcified, Freeze-Dried Cancellous Bone -- Material in Periodontal Surgery. (Pearson, Rosen, and Deporter) 55
Allografts: Immunologic Tolerance to Collagen and Glycosaminoglycan Components of Scleral -- in Humans—Evidence for T Cell Suppression. (Felts, Engel, Ammons, and Narayanan) 603
Alveolar Bone: -- Loss Due to Open Interproximal Contacts in Periodontal Disease. (Koral, Howell, and Jeffcoat) 447
American Academy of Periodontology, 67th Annual Meeting 392
Anatomy: The Relationship of Palato-Gingival Grooves to Localized Periodontal Disease. (Withers, Brunsvold, Killoy, and Rahe) 41
Antibiotics: -- in the Treatment of Human Periodontal Diseases. (Genco) 545
Antibodies: Antibodies to Herpes Simplex Virus in Human Gingival Fluid. (Hochman, Rones, Ehrlich, Levy, and Zakay-Rones) 324
Antibody: Detachment of Endothelial Cells by Polymorphonuclear Leukocytes *in Vitro*: Potentiation by -- Coating and Prevention by Inflammatory Exudate. (Cogen, Taubman, and Tuddenham) 668
Antiseptics: The Use of Polymethylmethacrylate to Compare the Adsorption and Staining Reactions of Some Cationic. --. (Addy, and Roberts) 380
Antitrypsin: Serum α-1-Antitrypsin in Patients With Juvenile Periodontitis. (Sandholm, Saxen, and Koistinen) 321
Blood Vessels: Detachment of Endothelial Cells by Polymorphonuclear Leukocytes *in Vitro*: Potentiation by Antibody Coating and Prevention by Inflammatory Exudate. (Cogen, Taubman, and Tuddenham) 668
Bone Graft: Comparison of -- Materials—Part I. New Bone Formation With Autografts and Allografts Determined by Strontium-85. (Mellonig, Bowers, and Bailey) 291
Bone Graft: Comparison of -- Materials—Part II. New Bone Formation With Autografts and Allografts: A Histological Evaluation. (Mellonig, Bowers, and Cotton) 297
Bone Grafts: Preliminary Observations on the Usefulness of a Decalcified, Freeze-Dried Cancellous Bone Allograft Material in Periodontal Surgery. (Pearson, Rosen, and Deporter) 55
Bone Resection: Histometric Evaluation of Periodontal Surgery. III. The Effect of -- on the Connective Tissue Attachment Level. (Caton, and Nyman) 405
Cementum: Topography of Root Surfaces Treated *in Vitro* With Citric Acid, Elastase and Hyaluronidase—A Scanning Electron Microscopy Study. Part II. (Daryabegi, Pameijer, and Ruben) 736
Centric Relation: -- Determinations: Clinical and Radiographic Comparisons. (Carwell, and McFall) 347
Chemotaxis: Neutrophil -- in Individuals With Advanced Periodontal Disease and a Genetic Predisposition to Diabetes Mellitus. (McMullen, Van Dyke, Horoszewicz, and Genco) 167
Chemotaxis: Peripheral Blood Leukocyte Abnormalities and Periodontal Disease—A Family Study. (Vandesteen, Altman, and Page) 174
Chlorhexidine Digluconate: The Inhibitory Effect of -- on Dental Plaque Formation—A Scanning and Transmission Electron Microscope Study. (Yamaguchi, Hirasawa, Tanaka, Shioiri, and Matsue) 630
Citric Acid: Topography of Root Surfaces Treated *in Vitro* With -- Elastase and Hyaluronidase—A Scanning Electron Microscopy Study. Part II (Daryabegi, Pameijer, and Ruben) 736
Collagen: Immunologic Tolerance to -- and Glycosaminoglycan Components of Scleral Allografts in Humans—Evidence for T Cell Suppression. (Felts, Engle, Ammons, and Narayanan) 603
Collagen: The Effect of Marrow on the Formation of "Functionally" Oriented -- Fibers. (Morris) 690
Collagen Gel: Healing Potential of Surgically Induced Periodontal Osseous Defects in Animals Using Mineralized -- Xenografts. (Levy, Nevins, and LaPorta) 303
Complement: Disruption of -- -Mediated Reactions by Insoluble Dentifrice Ingredients. (Boackle, Draughn, and Vesely) 621
Connective Tissue: Relationships Between Epithelium and -- in Inflamed Gingiva (Polson, Greenstein, and Caton) 743
Conscious Sedation: Intravenous -- in the Periodontal Patient. (Hillmann, McFall, and Gregg) 24
Contact Points: Alveolar Bone Loss Due to Open Interproximal Contacts in Periodontal Disease. (Koral, Howell, and Jeffcoat) 447
Dentifice: Disruption of Complement-Mediated Reactions by Insoluble -- Ingredients. (Boackle, Draughn, and Vesely) 621
Dentogingival Junction: Current Concepts of the --: The Epithelial and Connective Tissue Attachments to the Tooth. (Stern) 465
Desquamative Lesions: -- of the Gingiva. (Nisengard, and Neiders) 500
Developmental Defects: The Relationship of Palato-Gingival Grooves to Localized Periodontal Disease. (Withers, Brunsvold, Killoy, and Rahe) 41
Diabetes: Comparison of Neutrophil Chemotactic Response in Diabetic Patients With Mild and Severe Periodontal Disease. (Manouchehr-Pour, Spagnuolo, Rodman, and Bissada) 410
Diabetes Mellitus: Neutrophil Chemotaxis in Individuals With Advanced Periodontal Disease and a Genetic Predisposition to --. (McMullen, Van Dyke, Horoszewicz, and Genco) 167
Diagnosis: Associations Between Crestal Lamina Dura and Periodontal Status. (Greenstein, Polson, Iker, and Meitner) 362

Diagnosis: Determination of Periodontal Disease Activity. (Hancock) 492
Dura Mater: A Clinical Evaluation of Freeze-Dried Homologous -- as a Periodontal Free Graft Material—Study in Humans. (Bartolucci) 354
Diagnosis: Clinical Significance of Gingival Fluid Measurement by "Periotron" (Tsuchida, and Hara). 697
Durapatite Ceramic: Evaluation of -- as an Alloplastic Implant in Periodontal Osseous Defects—I. Initial Six-Month Results. (Rabalais, Yukna, and Mayer) 680
Elastase: Topography of Root Surfaces Treated *in Vitro* With Citric Acid, -- and Hyaluronidase—A Scanning Electron Microscopy Study. Part II. (Daryabegi, Pameijer, and Ruben) 736
Endodontics: *In Vitro* Growth of Human Gingival Fibroblasts on Root Surfaces of Endodontically Treated Teeth. (Dunlap, Gray, Turner, Vernino, Williams, and Pelleu) . 140
Endothelial Cells: Detachment of -- by Polymorphonuclear Leukocytes *in Vitro*: Potentiation by Antibody Coating and Prevention by Inflammatory Exudate. (Cogen, Taubman, and Tuddenham) 668
Enzymes: Penetration of Dental Plaque Components Into Gingiva: Sequential Topical Treatments with Hyaluronidase and Streptococcal Polysaccharide in Rats. (Gaffar, Coleman, and Marcussen) 197
Epidemiology: Alveolar Bone Loss in Relation to Periodontal Treatment Need, Socioeconomic Status and Dental Health. (Markkanen, Rajala, Knuuttila, and Lammir) 99
Epithelial Attachment: See Junctional Epithelium
Epithelium: Keratinization of the Sulcular ---A Pointless Pursuit? (Squier) 426
Epithelium: Relationships Between -- and Connective Tissue in Inflamed Gingiva. (Polson, Greenstein, and Caton) 743
Etiology: The Relationship of Palato-Gingival Grooves to Localized Periodontal Disease. (Withers, Brunsvold, Killoy, and Rahe) 41
Epithelial Attachment: Ultrastructure of the Normal Human -- to the Cementum Root Surface. (Sabag, Saglie, and Mery) 94
Etiology: Significance of Occlusion in the -- and Treatment of Early, Moderate and Advanced Periodontitis. (Ramfjord, and Ash) 511
Eubacterium saburreum: -- and *Veillonella parvula*: A Symbiotic Association of Oral Strains. (Mashimo, Murayama, Reynolds, Mouton, Ellison, and Genco) 374
Fiber Retention Procedure: Use of the -- in Treating the Maxillary Anterior Region. (Dello Russo) 208
Fibrinolytic Activity: Fibrinolytic Activity in Periodontal Disease—the Relationship Between Fibrinolytic Activity and Severity of Periodontal Disease. (Hidaka, Maeda, Kawakami, Aono, and Okada) 181
Fibroblasts, Gingival: *In Vitro* Growth of Human Gingival Fibroblasts on Root Surfaces of Endodontically Treated Teeth. (Dunlap, Gray, Turner, Vernino, Williams, and Pelleu) 140
Fibroblasts: Effect of Phenytoin on Mitotic Activity of Gingival Tissue and Cultured -- (Al-Ubaidy, Al-Janabi, and Al-Tai) 747
Filter: A New -- for Osseous Coagulum Collection. (Dayoub) 45
Freeze-Dried Bone: Preliminary Observations on the Usefulness of a Decalcified, Freeze-Dried Cancellous Bone Allograft Material in Periodontal Surgery. (Pearson, Rosen, and Deporter) 55
Furcation Invasions: Current Status of the Management of Teeth With --. (Newell) 559
Genetics: Neutrophil Chemotaxis in Individuals With Advanced Periodontal Disease and a Genetic Predisposition to Diabetes Mellitus. (McMullen, Van Dyke, Horoszewicz, and Genco) 167
Genetics: Peripheral Blood Leukocyte Abnormalities and Periodontal Disease—A Family Study. (Vandesteen, Altman, and Page) 174
Genetics: Root Fusion in Molars: Incidence and Sex Linkage. (Ross, and Evanchik) 663
Gingiva: Nuclear Uptake of Sex Steroids in Gingiva of the Baboon. (Aufdemorte, and Sheridan) 430
Gingiva, Keratinized: The Width of Keratinized Gingiva During Orthodontic Treatment: Its Significance and Impact on Periodontal Status. (Coatoam, Behrents, and Bissada) 307
Gingiva: Prostaglandins in -- of Patients with Periodontal Disease. (ElAttar, and Lin) 16
Gingiva: Effect of Phenytoin on Mitotic Activity of Gingival Tissue and Cultured Fibroblasts (Al-Ubaidy, Al-Janabi, and Al-Tai) 747
Gingiva: Melanin Pigmentation and Inflammation in Human -- (Patsakas, Demetriou, and Angelopoulos) 701
Gingival Crevice Fluid: Tetracycline: Levels in Achievable in -- and *in Vitro* Effect on Subgingival Organisms—Part I. Concentrations in Crevicular Fluid After Repeated Doses. (Gordon, Walker, Murphy, Goodson, and Socransky) 609
Gingival Crevice Fluid: Tetracycline: Levels Achievable in -- and *in Vitro* Effect on Subgingival Organisms—Part II. Susceptibilities of Periodontal Bacteria. (Walker, Gordon, McQuilkin, Niebloom, and Socransky) 613
Gingival Fluid: Clinical Significance of -- Measurement by "Periotron". (Tsuchida, and Hara) 697
Gingival Grafts: A Clinical Evaluation of Freeze-Dried Homologous Dura Mater as a Periodontal Free Graft Material—Study in Humans. (Bartolucci) 354
Gingival Grafts: A Relationship Between Success of Free Gingival Grafts and Transplant Thickness—Revascularization and Shrinkage—A One Year Clinical Study. (Mormann, Schaer, and Firestone) 74
Gingival Hyperplasia: Salivary Composition, Phenytoin Ingestion and Gingival Overgrowth. (Smith, and Hamilton) 673
Gingival Stimulation: A Clinical Approach to --. (Fourel, Falabregues, and Bonfil) 130
Gingivitis: The Relationships Between Malocclusion, Gingival Inflammation, Plaque and Calculus. (Buckley) 35
Gingivitis: Histologic Characteristics Associated With Bleeding After Probing and Visual Signs of Inflammation. (Greenstein, Caton, and Polson) 420
Gingivitis: Lymphocyte Transformation response in -- and periodontitis—A review. (Campana) 367
Gingivitis, Hyperplastic: The Hyperplastic Gingivitis of Wegener's Granulomatosis. (Israelson, Binnie, and Hurt) 81
Gingivitis: Depth of Periodontal Probe Penetration Related to

Clinical and Histologic Signs of Gingival Inflammation. (Caton, Greenstein, and Polson) 626
Gingivitis: Relationships Between Epithelium and Connective Tissue in Inflamed Gingiva. (Polson, Greenstein, and Caton) 743
Gingivitis: Experimental -- in ODU Plaque-Susceptible Rats—VI. Histopathological Studies (Ohura, Ito, and Mori) 758
Glycosaminoglycans: Immunologic Tolerance to Collagen and -- Components of Scleral Allografts in Humans—Evidence for T Cell Suppression. (Felts, Engel, Ammons, and Narayanan) 603
Grafts: A Clinical Evaluation of Freeze-Dried Homologous Dura Mater as a Periodontal Free Graft Material—Study in Humans. (Bartolucci) 354
Grafts: Comparison of Bone -- Materials—Part I. New Bone Formation With Autografts and Allografts Determined by Strontium-85. (Mellonig, Bowers, and Bailey) 291
Grafts: Comparison of Bone -- Materials—Part II. New Bone Formation With Autografts and Allografts: A Histological Evaluation. (Mellonig, Bowers, and Cotton) 297
Grafts, Gingival: Gingival Grafts: A Historical Note. (Baer, and Benjamin) 206
Grafts: Healing Potential of Surgically-Induced Periodontal Osseous Defects in Animals Using Mineralized Collagen Gel Xenografts. (Levy, Nevins, and LaPorta) 303
Grafts: Kielbone in New Attachment Attempts in Humans. (Nielsen, Ellegaard, and Karring) 723
Herpes Simplex Virus: Antibodies to -- in Human Gingival Fluid. (Hochman, Rones, Ehrlich, Levy, and Zakay-Rones) 324
Histology: Early Re-entry Procedure—Part II. A Five Year Histologic Evaluation. (Langer, Gelb, and Krutchkoff) 135
Hormones: The Effect of Female Sex -- on Subgingival Plaque. (Jensen, Liljemark, and Bloomquist) 599
Hormones: The Influence of Oral Contraceptive Therapy on the Periodontium—Duration of Drug Therapy. (Pankhurst, Waite, Hicks, Allen, and Harkness) 617
Host Response: Current Status of the -- in Chronic Marginal Periodontitis. (Page, and Schroeder) 477
Hyaluronidase: Penetration of Dental Plaque Components into Gingiva: Sequential Topical Treatments With -- and Streptococcal Polysaccharide in Rats. (Gaffar, Coleman, and Marcussen) 197
Hyaluronidase: Topography of Root Surfaces Treated *in Vitro* With Citric Acid, Elastase and ---A Scanning Electron Microscopy Study. Part II. (Daryabegi, Pameijer, and Ruben) 736
Hygiene, Oral: Oral Hygiene for the Partially Edentulous. (Bassiouny, and Grant) 214
Immune Response: Immune Response to Keyhold Limpet Hemocyanin and Oral *Actinomyces viscosus* Antigens in *Macaca arctoides*. (Reed, Borkow, and Staple) 111
Immunoglobulins: IgG and IgG Subclasses in Human Periodontosis (Juvenile Periodontitis)—Serum Concentrations. (Waldrop, Mackler, and Schur) 96
Immunology: Lymphocyte Transformation Responses in Gingivitis and Periodontitis—A Review. (Campana) 367
Immunology: Antibodies to Herpes Simplex Virus in Human Gingival Fluid. (Hochman, Rones, Ehrlich, Levy, and Zakay-Rones) 324
Immunology: IgG and IgG Subclasses in Human Periodontitis (Juvenile Periodontitis)—Serum Concentrations. (Waldrop, Mackler, and Schur) 96
Immunology: Immunologic Study of Human Periodontotis (Juvenile Periodontitis). (Waldrop, Mackler, Schur, and Killoy) 8
Immunology: Immunological Comparison of Plaque-Resistant and Plaque-Susceptible Inbred Rat Strains. (Ito, Mergenhage, and Rosenstreich) 190
Immunology: Immunologic Tolerance to Collagen and Glycosaminoglycan Components of Scleral Allografts in Humans—Evidence for T Cell Suppression. (Felts, Engel, Ammons, and Narayanan) 603
Immunology: Disruption of Complement-Mediated Reactions by Insoluble Dentifrice Ingredients. (Boackle, Draughn, and Vesely) 621
Implants: Evaluation of Durapatite Ceramic as an Alloplastic Implant in Periodontal Osseous Defects—I. Initial Six-Month Results. (Rabalais, Yukna, and Mayer) 680
Inflammation: The Relationship Between Gingival Tissue Temperatures and Various Indicators of Gingival Inflammation. (Holthuis, Gelskey, and Chebib) 187
Inflammation: Histologic Characteristics Associated With Bleeding After Probing and Visual Signs of --. (Greenstein, Caton, and Polson) 420
Inflammation: Detachment of Endothelial Cells by Polymorphonuclear Leukocytes *in Vitro*: Potentiation by Antibody Coating and Prevention by Inflammatory Exudate. (Cogen, Taubman, and Tuddenham) 668
Inflammation: Melanin Pigmentation and -- in Human Gingiva. (Patsakas, Demetriou, and Angelopoulos) 701
Junctional Epithelium: Current Concepts of the Dentogingival Junction: The Epithelial and Connective Tissue Attachments to the Tooth. (Stern) 465
Juvenile Periodontitis: IgG and IgG Subclasses in Human Periodontosis (--)—Serum Concentrations. (Waldrop, Mackler, and Schur) 96
Juvenile Periodontitis: Immunologic Study of Human Periodontosis (--). (Waldrop, Mackler, Schur, and Killoy) 8
Juvenile Periodontitis: Serum α-1-Antitrypsin in Patients with --. (Sandholm, Saxen, and Koistinen) 321
Juvenile Periodontitis: A Selective Medium for *Actinobacillus actinomycetemcomitans* and the Incidence of the Organism in --. (Mandell, and Socransky) 593
Juvenile Periodontitis: Advanced Alveolar Bone Loss in the Primary Dentition—A Case Report. (Goepferd) 753
Keratinization: -- of the Sulcular Epithelium—A Pointless Pursuit? (Squier) 426
Kielbone: -- in New Attachment Attempts in Humans. (Nielsen, Ellegaard, and Karring) 723
Lamina Dura: Associations Between Crestal -- and Periodontal Status. (Greenstein, Polson, Iker, and Meitner) 362
Leukocytes: Neutrophil Chemotaxis in Individuals With Advanced Periodontal Disease and a Genetic Predisposition to Diabetes Mellitus. (McMullen, Van Dyke, Horoszewicz, and Genco) 167
Leukocytes: Peripheral Blood -- Abnormalities and Periodontal Disease—A Family Study. (Vandesteen, Altman, and Page) 174
Lymphocyte: Lymphocyte transformation responses in gingivitis and periodontitis—A review. (Campana) 367
Macaca arctoides: Immune Response to Keyhold Limpet He-

mocyanin and Oral *Actinomyces viscosus* Antigens in --. (Reed, Borkow, and Staple) 111
Macrophages: Activated -- in Human Periodontitis. (Charon, Toto, and Gargiulo) 328
Maintenance Phase: -- of Periodontal Therapy. (Shick) . 576
Malocclusion: The Relationships Between --, Gingival Inflammation, Plaque and Calculus. (Buckley) 35
Marrow: The Effect of -- on the Formation of "Functionally" Oriented Collagen Fibers. (Morris) 690
Melanin: -- Pigmentation and Inflammation in Human Gingiva. (Patsakas, Demetriou, and Angelopoulos) .. 701
Microbiology: *Eubacterium saburreum* and *Veillonella parvula*: A Symbiotic Association of Oral Strains. (Mashimo, Murayama, Reynolds, Mouton, Ellison, and Genco) . 374
Microbiology: The Composition of the Subgingival Microbiota After Periodontal Therapy. (Rosenberg, Evian, and Listgarten) 435
Microbiology: A Selective Medium for *Actinobacillus actinomycetemcomitans* and the Indicence of the Organism in Juvenile Periodontitis. (Mandell, and Socransky) . 593
Microbiology: Tetracycline: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part I. Concentrations in Crevicular Fluid After Repeated Doses. (Gordon, Walker, Murphy, Goodson, and Socransky) 609
Microbiology: Tetracycline: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part II. Susceptibilities of Periodontal Bacteria. (Walker, Gordon, McQuilkin, Niebloom, and Socransky) 613
Microbiota: The Composition of the Subgingival -- After Periodontal Therapy. (Rosenberg, Evian, and Listgarten) 435
Modified Widman Flap: Vascular Response to -- Surgery in Monkeys. (Caffesse, Castelli, and Nasjleti) 1
Mucogingival Problems: The Current Status of -- and Their Therapy. (Hall) 569
Mucous Extravasation Phenomenon: -- of the Hard Palate Following Periodontal Surgery (Curtis, and Hutchinson) 750
Neutrophil: Neutrophil Chemotaxis in Individuals With Advanced Periodontal Disease and a Genetic Predisposition to Diabetes Mellitus (McMullen, Van Dyke, Horoszewicz, and Genco) 167
Neutrophil: Peripheral Blood Leukocyte Abnormalities and Periodontal Disease—A Family Study. (Vandesteen, Altman, and Page) 174
Neutrophil: Comparison of -- Chemotactic Response in Diabetic Patients With Mild and Severe Periodontal Disease. (Manouchehr-Pour, Spagnuolo, Rodman, and Bissada) 410
Neutrophils: Detachment of Endothelial Cells by Polymorphonuclear Leukocytes *in Vitro*: Potentiation by Antibody Coating and Prevention by Inflammatory Exudate. (Cogen, Taubman, and Tuddenham) 668
New Attachment: Kielbone in -- Attempts in Humans. (Nielsen, Ellegaard, and Karring) 723
New Attachment: Regeneration and Repair After Biologic Treatment of Root Surfaces in Monkeys—I. Facial Surfaces Maxillary Incisors. (Wirthlin, Hancock, and Gaugler) 729
New Attachment Therapy: The Current Status of --. (Wirthlin) 529
Occlusion: Significance of -- in the Etiology and Treatment of Early, Moderate and Advanced Periodontitis. (Ramfjord, and Ash) 511
ODU Plaque-Susceptible Rats: Experimental Gingivitis in ——VI. Histopathological Studies. (Ohura, Ito, and Mori) 758
Oral Contraceptives: The Influence of -- Therapy on the Periodontium—Duration of Drug Therapy. (Pankhurst, Waite, Hicks, Allen, and Harkness) 617
Oral Hygiene: Effect of Toothbrushing on Subgingival Plaque Formation. (Waerhaug) 30
Oral Hygiene: Oral Hygiene Skill Achievement Index I. (Neiderman, and Sullivan) 143
Oral Hygiene: Oral Hygiene Skill Achievement Index II. (Neiderman, Sullivan, Weiss, Morhart, Robbins, and Maier) 150
Orthodontics: Changes of the marginal periodontium as a result of labial tooth movement on monkeys. (Steiner, Pearson, and Ainamo) 314
Orthodontics: The Width of Keratinized Gingiva During Orthodontic Treatment: Its Significance and Impact on Periodont Status. (Coatoam, Behrents, and Bissada) . 307
Osseous Coagulum: A New Filter for -- Collection. (Dayoub) 45
Osseous Surgery: A New Filter for Osseous Coagulum Collection. (Dayoub) 45
Palato-Gingival Grooves: The Relationship of -- to Localized Periodontal Disease. (Withers, Brunsvold, Killoy, and Rahe) 41
Papilln-Lefevre Syndrome: Scanning Electron-Microscopy of Plaque in --. (Jung, Carranza, and Newman) 442
Pathogenesis: Spontaneous Chronic Periodontitis in Adult Dogs—A Clinical and Histopathological Survey. (Page, and Schroeder) 60
Periodontal Disease: Alveolar Bone Loss Due to Open Interproximal Contact in --. (Koral, Howell, and Jeffcoat) 447
Periodontal Disease: Treatment of -- in a Patient With Turner's Syndrome—A Case Report. (Michaelides) 386
Periodontal Disease Activity: Determination of --. (Hancock) 492
Periodontal Ligament: The Effect of Marrow on the Formation of "Functionally" Oriented Collagen Fibers. (Morris) 690
Periodontal Probe: A Simple Constant—Force Pocket Probe. (Borsboom, ten Bosch, Corba, and Tromp) 390
Periodontal Probe: Depth of -- Penetration Related to Clinical and Histologic Signs of Gingival Inflammation. (Caton, Greenstein, and Polson) 626
Periodontal Surgery: Mucous Extravasation Phenomenon of the Hard Palate Following --. (Curtis, and Hutchinson) 750
Periodontal Therapy: The Composition of the Subgingival Microbiota After --. (Rosenberg, Evian, and Listgarten) 435
Periodontitis: Spontaneous Chronic -- in Adult Dogs—Clinical and Histopathological Survey. (Page, and Schroeder) 60
Periodontitis: Lymphocyte Transformation Responses in Gingivitis and --. (Campana) 367

Periodontitis: Interproximal and Buccal Cell Populations Apical to the Sulcus Before and During Experimental -- in Squirrel Monkeys. (Adams, Zander, and Polson) . 416
Periodontitis: Current Status of the Host Reponse in Chronic Marginal --. (Page, and Schroeder) 477
Periodontitis: Significance of Occlusion in the Etiology and Treatment of Early, Moderate and Advanced --. (Ramfjord, and Ash) 511
Periodontosis: Immunologic Study of Human -- (Juvenile Periodontitis). (Waldrop, Mackler, Schur, and Killoy) .. 8
Phenytoin: Effect of -- on Mitotic Activity of Gingival Tissue and Cultured Fibroblasts. (Al-Ubaidy, Al-Janabi, and Al-Tai) 747
Phenytoin: Salivary Composition, -- Ingestion and Gingival Overgrowth. (Smith, and Hamilton). 673
Plaque: Effect of Toothbrushing on Subgingival -- Formation. (Waèrhaug) 30
Plaque: The Relationships Between Malocclusion, Gingival Inflammation, -- and Calculus. (Buckley) 35
Plaque Control: Effectiveness of Supragingival Plaque Control on the Development of Subgingival Plaque and Gingival Inflammation in Patients With Moderate Pocket Depth. (Tabita, Bissada, and Maybury) 88
Plaque: Immunological Comparison of Plaque-Resistant and Plaque-Susceptible Inbred Rat Strains. (Ito, Mergenhage, and Rosenstreich) 190
Plaque: Penetration of Dental Plaque Components Into Gingiva: Sequential Topical Treatments With Hyaluronidase and Streptococcal Polysaccharide in Rats. (Gaffar, Coleman, and Marcussen) 197
Plaque: Scanning Electron-Microscopy of -- in Papillon- Lefevre syndrome. (Jung, Carranza, and Newman) . 442
Plaque: The Effect of Female Sex Hormones on Subgingival --. (Jensen, Liljemark, and Bloomquist) 599
Plaque: Tetracycline: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part I. Concentrations in Crevicular Fluid After Repeated Doses. (Gordon, Walker, Murphy, Goodson, and Socransky) 609
Plaque: Tetracycline: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part II. Susceptibilities of Periodontal Bacteria. (Walker, Gordon, McQuilkin, Niebloom, and Socransky) 613
Plaque: The Inhibitory Effect of Chlorhexidine Digluconate on Dental -- Formation—A Scanning and Transmission Electron Microscope Study. (Yamaguchi, Hirasawa, Tanaka, Shioiri, and Matsue) 630
Polymethylmethacrylate: The Use of -- to Compare the Adsorption and Staining Reactions of Some Cationic Antiseptics. (Addy, and Roberts) 380
Polymorphonuclear Leukocytes: Detachment of Endothelial Cells by -- *in Vitro*: Potentiation by Antibody Coating and Prevention by Inflammatory Exudate. (Cogen, Taubman, and Tuddenham) 668
Primary Dentition: Advanced Alveolar Bone Loss in the ----A Case Report. (Goepferd) 753
Probe: The Location of the Periodontal -- Tip in Health and Disease. (Hancock, and Wirthlin) 124
Probe: A Simple Constant—Force Pocket Probe. (Borsboom, ten Bosch, Corba, and Tromp) 390
Probe: Depth of Periodontal -- Penetration Related to Clinical and Histologic Signs of Gingival Inflammation. (Caton, Greenstein, and Polson) 626
Probing: Histologic Characteristics Associated With Bleeding After -- and Visual Signs of Inflammation. (Greenstein, Caton, and Polson) 420
Prostaglandins: -- in Gigiva of Patients with Periodontal Disease. (ElAttar, and Lin) 16
Radiographs: Associations Between Crestal Lamina Dura and Periodontal Status. (Greenstein, Polson, Iker, and Meitner) 362
Radiographs: Centric Relation Determinations: Clinical and Radiographic Comparisons. (Carwell, and McFall) 347
Restorative Dentistry: Alveolar Bone Loss Due to Open Interproximal Contacts in Periodontal Disease. (Koral, Howell, and Jeffcoat) 447
Root Fusion: -- in Molars: Incidence and Sex Linkage. (Ross, and Evanchik) 663
Root Planing: The Effectiveness of Subgingival Scaling and -- in Calculus Removal. (Rabbani, Ash, and Caffesse) 119
Root Resections: An Evaluation of ----A Ten-Year Study. (Langer, Stein, and Wagenberg) 719
Root Surfaces: Topography of -- Treated *in Vitro* With Citric Acid, Elastase and Hyaluronidase—A Scanning Electron Microscopy Study. Part II. (Daryabegi, Pameijer, and Ruben) 736
Root Surfaces: Chemical Treatment of Diseased—*in Vitro*. (Wirthlin, and Hancock) 694
Scaling, Subgingival: The Effectiveness of Subgingival Scaling and Root Planing in Calculus Removal. (Rabbani, Ash, and Caffesse) 119
Saliva: Salivary Composition, Phenytoin Ingention and Gingival Overgrowth. (Smith, and Hamilton) 673
Sclera: Immunologic Tolerance to Collagen and Glycosaminoglycan Components of Scleral Allografts in Humans—Evidence for T Cell Suppression. (Felts, Engel, Ammons, and Narayanan) 603
Sedation: Intravenous Conscious -- in the Periodontal Patient. (Hillman, McFall, and Gregg) 24
Sex Linkage: Root Fusion in Molars: Incidence and --. (Ross, and Evanchik) 663
Sex Steroids: Nuclear Uptake of -- in Gingiva of the Baboon. (Aufdemorte, and Sheridan) 430
Splinting: A comparison of a composite restorative material and wire ligation as methods of stabilizing excessively mobile mandibular anterior teeth. (Stoller, and Green) 451
Stabilization: A Comparison of a Composite Restorative Material and Wire Ligation as Methods of Stabilizing Excessively Mobile Mandibular Anterior Teeth. (Stoller, and Green) 451
Staining: The Use of Polymethylmethacrylate to Compare the Adsorption and -- Reactions of Some Cationic Antiseptics. (Addy, and Roberts) 380
Streptococcal Polysaccharide: Penetration of Dental Plaque Components Into Gingiva: Sequential Topical Treatments With Hyaluronidase and -- in Rats. (Gaffar, Coleman, and Marcussen) 197
Subgingival Plaque: The Effect of Female Sex Hormones on --. (Jensen, Liljemark, and Bloomquist) 599
Subgingival Plaque: Tetracycline: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part I. Concentrations in Crevicular Fluid

After Repeated Doses. (Gordon, Walker, Murphy, Goodson, and Socransky) 609
Subgingival Plaque: Tetracycline: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part II. Susceptibilities of Periodontal Bacteria. (Walker, Gordon, McQuilkin, Niebloom, and Socransky) 613
Surgery: Histometric Evaluation of Periodontal ---III. The Effect of Bone Resection on the Connective Tissue Attachment Level. (Caton, and Nyman) 405
Surgery: An Overview of Periodontal Surgical Procedures. (Barrington) 518
Surgical Procedures: An Overview of Periodontal --. (Barrington) 518
Systemic Lupus Erythematosus: Periodontal Disease Associated with Amegakaryocytic Thrombocytopenia in --. (Vogel) 20
Temperature, Gingival: The Relationship Between Gingival Tissue Temperatures and Various Indicators of Gingival Inflammation. (Holthuis, Gelskey, and Chebib) .. 187
Tetracycline: --: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part I. Concentrations in Crevicular Fluid After Repeated Doses. (Gordon, Walker, Murphy, Goodson, and Socransky) 609
Tetracycline: --: Levels Achievable in Gingival Crevice Fluid and *in Vitro* Effect on Subgingival Organisms—Part II. Susceptibilities of Periodontal Bacteria. (Walker, Gordon, McQuilkin, Niebloom, and Socransky) 613
Therapy: Use of the Fiber Retention Procedure in Treating the Maxillary Anterior Region. (Dello Russo) 208
Therapy: Maintenance Phase of Periodontal --. (Shick) . 576
Therapy: The Current Status of Mucogingival Problems and Their --. (Hall) 569
Therapy: An Overview of Periodontal Surgical Procedures. (Barrington) 518
Therapy: Antibiotics in the Treatment of Human Periodontal Diseases. (Genco) 545
Therapy: Current Status of the Management of Teeth With Furcation Invasions. (Newell) 559
Therapy: An Evaluation of Root Resections—A Ten-Year Study. (Langer, Stein, and Wagenberg) 719
Therapy: Four Types of Periodontal Treatment Compared Over Two Years. (Hill, Ramfjord, Morrison, Appleberry, Caffesse, Kerry, and Nissle) 655
Therapy: Evaluation of Durapatite Ceramic as an Alloplastic Implant in Periodontal Osseous Defects—I. Initial Six-Month Results (Rabalais, Yukna, and Mayer) 680
Therapy: Chemical Treatment of Diseased Root Surfaces *in Vitro*. (Wirthlin, and Hancock) 694
Thrombocytopenia: Periodontal Disease Associated with Amegakaryocytic -- in Systemic Lupus Erythematosus. (Vogel) 20
Toothbrushing: Effect of -- on Subgingival Plaque Formation. (Waerhaug) 30
Treatment: Significance of Occlusion in the Etiology and -- of Early, Moderate and Advanced Periodontitis. (Ramfjord, and Ash) 511
Treatment: Four Types of Periodontal -- Compared Over Two Years. (Hill, Ramfjord, Morrison, Appleberry, Caffesse, Kerry, and Nissle) 655
Turner's Syndrome: Tratment of Periodontal Disease in a Patient With ---A Case Report. (Michaelides) .. 386
Veillonella parvula: Eubacterium saburreum and --: A Symbiotic Association of Oral Strains. (Mashimo, Murayama, Reynolds, Mouton, Ellison, and Genco) 374
Wegener's Granulomatosis: The hyperplastic gingivitis of --. (Israelson, Binnie, and Hurt) 81
Widman Flap: Vascular Response to Modified -- Surgery in Monkeys. (Caffesse, Castelli, and Nasjleti) 1
Wound Healing: Comparison of Bone Graft Materials—Part I. New Bone Formation With Autografts and Allografts Determined by Strontium-85. (Mellonig, Bowers, and Bailey) 291
Wound Healing: Comparison of Bone Graft Materials—Part II. New Bone Formation With Autografts and Allografts. A histological evaluation. (Mellonig, Bowers, and Cotton) 297
Wound Healing: Healing Potential of Surgically-Induced Periodontal Osseous Defects in Animals Using Mineralized Collagen Gel Xenografts. (Levy, Nevins, and LaPorta) 303
Wound Healing: A Relationship Between Success of Free Gingival Grafts and Transplant Thickness—Revascularization and Shrinkage—A One Year Clinical Study. (Mormann, Schaer, and Firestone) 74
Wound Healing: Vascular Response to Modified Widman Flap Surgery in Monkeys. (Caffesse, Castelli, and Nasjleti) 1
Wound Healing: Early Re-entry Procedure—Part II. A Five Year Histologic Evaluation. (Langer, Gelb, and Krutchkoff) 135
Wound Healing: A Clinical Evaluation of Freeze-Dried Homologous Dura Mater as a Peridontal Free Graft Material—Study in Humans. (Bartolucci) 354
Wound Healing: Histometric Evaluation of Periodontal Surgery—III. The Effect of Bone Resection on the Connective Tissue Attachment Level. (Caton, and Nyman) .. 405
Wound Healing: Kielbone in New Attachment Attempts in Humans. (Nielsen, Ellegaard, and Karring) 723
Wound Healing: Regeneration and Repair After Biologic Treatment of Root Surfaces in Monkeys—I. Facial Surfaces Maxillary Incissors. (Wirthlin, Hancock, and Gaugler) 729
Wound Healing: Mucous Extravasation Phenomenon of the Hard Palate Following Periodontal Surgery. (Curtis, and Hutchinson) 750
